

Edmonds Woodway Amateur Radio Club

Zoom Meeting of 11 November 2021

Meeting Minutes:

Agenda: Mark Smith N6MTS presents a program on Measuring Common Mode Current Chokes

From the Treasurer: We have money in the bank. Income this past month amounted to \$132 due to sales of surplus club equipment and donated gear thanks to the efforts of Greg N7IAD and Mike K7MH. Our treasurer, Barry K7BWH plans to go over our budget in some detail at the December meeting.

From the President:

- Daily 10 meter gatherings continue at Noon local time at 28.350 MHz
- Nominations for officers (president, vice-president, treasurer, and secretary) as well as the Executive Committee are welcome. Elections will be held in December and will most likely be on-line as we did last year. Nominations should go to President Ed N7PHY, or to the email reflector.
- Loaner Program: Our collection of loaner equipment needs updating. We have been talking about retiring much of our current loaner collection and purchasing some modern gear which beginner hams and other members could set up and use more easily. Talk has centered on getting an Icom IC-7300 as the center piece. We need to spend some time to nail down exactly what else we want to supply with the IC-7300 (antenna, power supply, coax, etc, etc). We also need to come up with guidelines for our lending policies.
- Winter Field Day is approaching: Jan 29/30 of 2022. Ed has secured permission for us to use the veranda on the south side of the Community Senior Center. Power will be available as will bathrooms. If you would like to help organize this club outing let the club officers know.

Presentation by Mark Smith N6MTS on Measuring Common Mode Chokes with a NanoVNA.

This presentation was recorded and is available at:

<https://www.youtube.com/watch?v=nDkpOjCOF4I>

Mark's YouTube channel at:

<https://www.youtube.com/user/SmittyHalibut>

has a presentation on the same subject along with a number of other interesting looking topics.

List of attendees. This list may not be complete. It is hard to keep track of comings and goings while watching the presentation.

1. Ed N7PHY
2. Tom K7BXA
3. David KA7UCI (first meeting. Welcome!)
4. Walt W7PRB
5. Dave WA7RSO
6. Mike W7NP
7. Mark Smith N6MTS (presenter)
8. Greg N7IAD
9. Barry K7BWH
10. Rene KD7PPT
11. John KM7O
12. Brian Radabaugh KG7PD
13. Frank N6CES
14. Rick K7TR
15. Scott KB7RSV
16. Chuck WA7BRL
17. Rich K7RCH
18. Tom KH6HDA
19. Elizabeth KI7AUH
20. Tony KF7LTK
21. Robert KD7WNV
