

## EDWAY NET SCRIPT

**\*\* Instructions.** Not part of the net script. It is a good idea to read through the entire script before running a net. Sections to be read aloud by Net Control Operator are in normal font. General instructions are in bold font. Please give your name and call sign where indicated by (NAME) and (CALL SIGN). Also announce closing time when closing down the net when you see (TIME).

### **The start of the net script.**

Good evening everyone, this is (NAME) (CALL SIGN) net control opening the Edmonds-Woodway Tuesday Net.

This net meets every Tuesday at 7:00 pm local time on the WA7DEM Repeater system at 443.725 on Narrow-Band FM with a tone of 156.7. If we cannot use the repeater because of a failure or if it is being used for other traffic, move to 146.580 simplex.

Emergency traffic always has priority. Any stations with emergency or priority items check in now please.

**Leave a break for traffic. For any responders code o for “In and Out”, or x for “Sticking Around”.**

Let's check with our mobile stations before they go out of range. Are there any mobile stations that wish to check in?

**Leave a break for traffic. For any responders code o for “In and Out”, or x for “Sticking Around”.**

The purpose of this net is to allow hams near our South Snohomish County location to meet other amateur radio operators and to pass on information of events and other items of interest to our local amateur community. This is an open net and everyone is invited to join in. Technical details of this net along with the script and the list of active participants may be found at [www.edwaynet.com](http://www.edwaynet.com) on the Tuesday Net page.

We begin with announcements by the Net Control Operator or by Edway Club officers.

**Net Control Operator or Edway Club officer may make general announcements.**

Does anyone else have a general interest announcement to add?

**Leave a break for general interest announcements from the net audience.**

Next we have a roll call of our active members. To be added to the active list simply check in a few times. To stay on the active list please check in at least once per month. At the end of the roll call we will ask for any late check-ins or visitors. Then we will proceed to comments and questions. If you want to check in without any comments just say, "In and Out."

Now we start the roll call of active stations.

**Go through the list of active stations (marked in blue). Leave blank for no response. Code o for "In and Out", or x for "Sticking Around".**

**After running through the list of active stations ask for late check-ins or visitors.**

Any late check-ins or visitors to the net come now. Please give your call sign phonetically and your name.

**For any responders code o for "In and Out", or x for "Sticking Around". Add visitors to the Visitor section below active stations.**

We will now go through the list of check-ins for comments or questions.

**Starting at the top go through the check-in list. Call on each person marked with an x to allow comments or questions.**

**After taking all comments or questions it's time to wrap up the net.**

## Edway Net Script

Is there any final business for the Edmonds-Woodway Net this evening?

### **Pause for response ...**

This is (NAME) (CALL SIGN) net control for the Edmonds-Woodway NET closing the net at (TIME). We wish to thank the Snohomish County Auxiliary Communications Service for the use of the WA7DEM repeater and return the repeater to normal Amateur use at this time. See you next Tuesday at 7 pm.
